Re: Announcement for Facility Security Officer Training

Dear Facility Security Officer,

The University of Findlay is at it again! We are offering a series of two-day training sessions that are designed specifically for individuals tasked with the role of Facility Security Officer.

We are bringing the training to a location near you!

The attached flier describes our program and provides the details for our next scheduled event on October 5th and 6th in Huntington, West Virginia. If you can't make it, we plan to be in Louisville, Cincinnati, Pittsburgh, Cleveland, Detroit and Milwaukee in the very near future!

US Coast Guard personnel from the local jurisdiction attend our classes. This benefits both the FSO and the USCG as we provide a forum for informal discussion on how the new regulations might affect operations at a specific facility.

For more information, contact Mark Alliman 800-521-1292 or by email at malliman@findlay.edu.

Remember. At The University of Findlay,

WE BRING THE TRAINING TO YOU!
